Decrees 6, 7, 8 lay foundationstone of a society void of exploitation of man by man

Following is the text of the speech of the Great Leader of the people of Afghanistan, General Secretary of Central Committee of PDPA, and President of the Revolutionary Council, Noor Mohammad Taraki, delivered last Monday June 4, while addressing a number of ulamas, elders and representatives of centres and woleswalis of Balkh and Samangan provinces and Zurmat woleswali of Pakthia province at the garden of People's House:

Dear compatriots, elders and esteemed youth welcome:

First Minister receives noble compatriots

KABUL, June 6, (Bakhtar).—Hafizullah Amin, Secretary and member of the Politburo of the Central Committee of the People's Democratic Party of Afghanistan and First Minister received a number of elders, chieftains and representatives of noble compatriots of Jaji Maidan, Musakhail Mangal, Bak, Tani, Garbaz, Ismail Khail, Mandozai, Ali Sher, Sabri, Nadir Shahkot and Zurmat of Pakthia province and centre of Khost loi woleswali and representatives of noble people of Qarabagh, Andar, Nawa, Moqur, Jaghatu, Gelan Oband, Dehyak, Zana Khan and centre of Ghazni province at the Stor Palace of Foreign Ministry yesterday at 2.30 p.m. and addressing them delivered a scholarly speech.

On arrival of the First Minister at the hall of Stor Palace the audience stood up and welcomed him with shouting of revolutionary slogans, long clapping and sincere sentiments.

The speech of the First Minister was received in every part by warm clapping.

The text of the speech will be published by Kabul Times later.

H. Amin meets Balkh, Samangan compatriots

KABUL, June 6, (Bakhtar).—Hafizullah Amin, Secretary and member of the Politburo of Central Committee of PDPA and First Minister received a number of elders, ulamas and chieftains of toiling people of centre and woleswalis of Balkh and Samangan provinces at the Garden of First Ministry at 9.30 a.m. yesterday.

The First Minister on arrival was welcomed by the audience with shouting of revolutionary slogans, long clapping and warm feelings and some participants on behalf of others presented a bouquet of flowers to the First Minister. Hafizullah Amin who after responding the warm sentiments of our compatriots, delivered his revolutionary speech which lasted 2½ hours. (The text of the speech will be carried in the Kabul Times later).

fulfilled. It is a matter of real pleasure that we meet today at a place which is the People's House. In the past this People's House belonged to such a despotic person who had subjected the people of Afghanistan to suppression and tyranny, had emptied their pockets, sucked their blood, ruined them and pitted them against each other.

Now it is the People's House and belongs to the people. In view of this our meeting at the People's House is of special importance. Prior to Saur Revolution we had published our manifesto in which we had said that we create a society in Afghanistan void of exploitation.

That programme was in detail. At that time it indeed profoundly affected the opinion of the people and awakened a great number of toiling people of Afghanistan, the youth and patriotic sons, rallied them around the Party upon which they started the struggle.

After the great Saur Revolution too we have always said that we want such a society in Afghanistan, and it will be built by the toilers of Afghanistan, where there is no exploitation of man by man. You might say what does a society, void of exploitation, mean? That is what kind of a society will it be? Will it be like the program we presented or something like?

The society void of exploitation will be such where there is no exploitation of man by man. In that society

everyone will work according to his ability and talent and earn accordingly unlike the past when one worked and others thrived or shared earning. Now, in the society that we will build, everyone will receive the fruit of his labour and will make his living with it and will not look at the pocket of others.

Unless such a society of plenty is built in Afghanistan, the people of Afghanistan will not become prosperous and their present problems, whether economic or social will not be solved. Thus, the khalqi state wants to guide its toiling people in such a way so that they take steps jointly towards building of such a society and achieve this goal swiftly.

No one can obstruct our way, because we have all remained with our people and those wolves and blood thirsty people of the past and those who were here to suck the blood of others either are trivial in number or have come and stood beside us. Now they are also our brothers. And we not only have anything to do with those who have come on our side, that is they have stood in the rows of toilers, they are, like other toilers, pupils of our eyes and we appreciate and respect them. By building such a society we can really ensure the slogan of food, clothing and shelter for the toiling people, a great slogan that was raised by the People's Democratic Party of Afghanistan long ago and for 14 years struggle was carried out under its flag, and no one will be without food, shelter and

clothing. Some people will think that it is a fantasy, but it is practical.

The people of Afghanistan really have this capability to build such a society and for building such a society they have so far taken great steps and the way is very well paved for them. The people of Afghanistan saw themselves the ability to build such a society such steps should have been taken, like the ones taken by their khalqi state and khalqi party, representing the toilers of the country. Such a society cannot be built easily alone by state and party unless the toilers themselves, that is the workers, peasants and all others are not attentive and do not join hands and not move towards building such a society with concord and as one fist. Until such time, the building of such society is not an easy task. Thus, the state and party want that all toilers should become one fist and move towards building a prosperous society, the foundation of which, as you see, we have laid during this past one year.

This foundation, as I have always repeated and is worth repeating, is laid through decrees Nos. six, seven and eight which for building of such a society in Afghanistan, void of exploitation, is a great foundation and has borne good fruit.

Our beloved and esteemed leader said: The foundation which we laid in Afghanistan for such a society trembled many people within and outside the country. It incited them

and they stood against us, and they should have stood against us. Because, as I said earlier, those blood thirsty wolves and those tyrants who like a leech were sticking on the throat of our people have all been thrown out. Now, they too exert efforts to obstruct the way for building such a society. However the people of Afghanistan will render these efforts ineffective as they have so far done.

Really unless we eliminate our enemies it is not possible to build such a society easily. Thus I once more emphasise that our people should, consciously and with awareness, stand by their khalqi state and their party and carry on all-sided struggle against such diverse enemies and achieve success. Our neighbours want to interfere in our internal affairs. Their interference has undesirable effect, it is trivial and has tensed and will further tense the political atmosphere. Therefore, all people of Afghanistan should be one fist and all-sidedly defend their land, their independence, their country's integrity and their non-alignment. I repeatedly say that you unitedly rally around your party and foil all plots of enemies whether it is in the light or darkness and do not allow that an obstacle is created in the efforts and endeavours of people of Afghanistan and that the construction of such a fortunate society that is a society void of exploitation is suspended. The fact is that no one can retard the building of such a society because now

the people of Afghanistan have realised to remove their basic difficulties. The side difficulties that they removed in the past was of no use. Now when the basic difficulties that is the economic and social, are removed everyone can live comfortably. Thus, they are really struggling against these enemies and the dark patch hovering in this region will again be brightened and the toilers of the region will come out in support of our toilers. We do not feel lonely. We are not under the

impression that all our neighbours are hundred per cent against us. We are sure that in our neighbouring countries specially Pakistan and Iran all the toilers are fully on our side. What you want, they want too. Your difficulties and their difficulties are identical and they all think the way you think. Thus, these opponents or enemies of revolution should bear in mind that the toilers of Afghanistan are not alone and for building of their society the toilers of the

Pak envoy handed over protest note

KABUL, June 6, (Bakhtar).—Following the ominous conspiracies and plots of imperialism and international reaction against the Democratic Republic of Afghanistan, authentic reports have recently reached here to the effect that the Pakistan armed militiamen have been making armed aggression against our sacred land in Chatral, Mohmand and Warizistan without any reason and pretention for the last several days and their attacks still continue.

The Ministry of Foreign Affairs of the Democratic Republic of Afghanistan summoned the Pakistani Ambassador to Kabul at the Ministry of Foreign Affairs at 4.30 p.m. yesterday and handed him over protest note of the government of the Democratic Republic of Afghanistan.

In the said note the arm-

ed aggression against our country has been strongly condemned and it is expected that such aggressions will be stopped, the soonest possible, because the continuation and repetition of such aggressions will not only cause crisis in relations between Afghanistan and Pakistan but will also direct serious danger to the peace of the region the responsibility for the consequences of which will of course be with Pakistan.

In the note it is added that the government of the Democratic Republic of Afghanistan which has always supported the policy of peace in the region and the world and has been for friendship with the countries of the region including Pakistan, wants that Pakistan should not resort to any act which is contrary to the spirit of friendship and causes crisis in the region.

H. Amin speaks to Zakha Khail Afridi elders

KABUL, June 6, (Bakhtar).—Hafizullah Amin, Secretary and member of the Politburo of Central Committee of PDPA and First Minister received a number of elders and representatives of Zakha Khail Afridi people at the Stor Palace of Foreign Ministry yesterday at 4 p.m.

The First Minister was warmly welcomed on arrival at the hall of Stor Palace.

He delivered a revolutionary speech before the audience which was welcomed in every part and clapping. The meeting lasted till 5.30 p.m. The text of the speech will be carried in the Kabul Times later.

(Continued from page 1)
region and even the world are on their side and they defend the revolution. The people of Afghanistan get united like a fist and defend their revolution. A great proof for this is that they are rallying every day through defence committees and at their own will and voluntarily come to these committees and get their names registered. They prove in practice that they are ready for all kinds of sacrifice in defending their revolution. They really render such sacrifice and they have done so.

It is a matter of pleasure and happiness for the people of Afghanistan that our people have awakened and now they have realised that the state, the party and toilers all jointly take part in defending the revolution. As is now more than 20,000 to 30,000 people have volunteered and are ready to take up arms and chase the enemy of revolution wherever he may be and eliminate him.

Noor Mohammad Taraki, General Secretary of the Central Committee of the People's Democratic Party of Afghanistan and President of the Revolutionary Council speaking about the unity of the people and the khalqi state said: When the great Saur Revolution triumphed some of the pessimists and adversaries used to say that we rule on the point of bayonet, no one likes it and has no supporters. But after a short time it was proved that the people of Afghanistan defend this state and this party by all means and are at their side. We relied first on God and then on them.

They have carried out struggle along with us and our enemies the imperialists and the regional and international reaction have realised that this state is not alone. It does not belong to a few persons but is of millions of Afghans and millions of people defend it. Every success of the toilers of Afghanistan leaves such an impact in the region that it gives a jolt to every body and wakes them up from a sleep of ignorance so that they too take measures for demanding their rights. From this point of view these enemies of the revolution whether they are inside or abroad want to divert the attention of the people to another point and not to allow them to get close to toilers of Afghanistan and the region and live in harmony like brothers.

Because if they come near to each other and strike a relationship of brotherhood this will have a significant effect and they will soon stage an uprising for achieving their rights. There enemies from this very point of view make efforts so that a situation of unrest prevail in Afghanistan thus diverting the attention of the toiling people of Afghanistan from building a society of plenty and encourage fracticide among them. This fracticide they consider in their own interest, and from any side if a brother is killed they become happy. But the people of Afghanistan have become conscious now and know that the intrigues of the imperialists and the enemies of the revolution will never become successful. We will soon solve all difficulties whether social, political or economic which really exist in the way of building a society void of exploitation of man by man.

When our revolution succeeded a minuscule number was against it and could play no significant role. Today imperialism and international reaction make efforts for the disappointment of our revolution but so far all their attempts have been futile. They want to renew the battle of words and a cold war between Pakistan and Afghanistan. This cold war is to the det-

rimment of all the toilers whether they are in Pakistan or in Iran. It results in disadvantage. It is exclusively in the benefit of the enemies of the people no matter they are in Pakistan or Iran or in Afghanistan. Therefore the enemies of the people fan up this cold war.

Regretfully it should be admitted that this cold war can be turned into a hot war and the hot war is fiery in which everybody will be burnt. It will not be so that one will be burnt and the other will remain, it is possible that such a fire is kindled from this that will engulf the whole region, and even to the extent, as said earlier, it might engulf the whole world. The first degree enemy of our great khalqi revolution is known, the whole imperialist camp, which wants to foil the revolution. Therefore it encourages those who have escaped from here to level diverse accusations against us and itself too levels accusations. The say that 50,000 people have fled from here and have taken refuge there. When asked why have they fled from Afghanistan they say that proper opportunity did not exist here for them to carry out religious activities, say prayers make ablutions or go to mosque. Therefore they have come here to perform their religious rites in a free atmosphere. However we know that all this is humbug, here in Afghanistan 20 million people including you, are followers of the holy religion of Islam and all carry out the holy tenets of Islam in the best possible way.

Here Shariat is in full cry. Call for prayers is given, mullahs are here. Noble mullahs preach and teach their students. When there is place for all these, then why there is no place for those few, the enemies say 50,000. It means that they have fled due to some sin or the satanic elements have deceived them, they are spies of farangis from their forefathers and have taken money from them and today they have been misled and deceived. The farangis and their toadies accuse our revolution that God forbidden, oppression exists here, or that religious duties are not performed here therefore they have fled there. I say that religious performance is free in Afghanistan, everybody can perform religious duties and tenets of Islam. We have the honour that we have provided all kinds of facilities in this regard and all the toiling muslims of Afghanistan make use of them. Our beloved and great leader said that in the clean attire of mullahs if any farangi or a devil has disguised himself under the name of a spiritual leader and in fact takes money from farangis thus Islam and infidelity are in his pockets. Anybody who gives more money to him he levels accusation of infidelity against his antagonists. This defile act can neither be accepted by the toiling people of Afghanistan nor by the real mullahs and devoted religious people. He sells his religion and faith for the sake of a few coins, he can really go anywhere else and is free to level accusations against us, because the people of Afghanistan well understand that what kind of state exists here, what kind of people are here and how the work is done. We are sure that our people will no more be deceived by these things and with this trade of religion and faith, these farangis make one remember that recently there were such Christian religious leaders who used to sell paradise and whoever used to give more money they used to give him the legal documents that such and such part of paradise is given to you, these pseudo-religious farangis do the same thing, whoever gives

they more money they level accusation against his adversary that is the khalqi who is working to flourish his country and his people. They accuse him falsely. But these lies and accusations are totally unsuccessful just as those efforts of the imperialists in the past and in Afghanistan to which history is witness. Today too they are unsuccessful. They carry out propaganda themselves and through their puppets and wage a psychological war against us and deceive the people through lies. All their attempts will go in vain just as in the past when they used to make armed interventions, used to come here and kill the people and loot.

The noble people of Afghanistan are not now like in the past when one used to say that "dog has taken away your ear and he used to run after the dog". Such a situation no more prevails.

Now everybody has recognised his friend and foe. By experience the people of Afghanistan have understood that farangis or this black reaction cannot be their friends. They gained this experience fifty years ago too. After the farangis sent the Nader-Daoud family here the people also tried the same experience. They saw by their own eyes that the farangis did what they should not have. They put the people under much oppression and pressure in the benefit of imperialists that is farangis and other exploiters of the region and international reaction. Now their wizardry does not work here. Now khalqi state is here. It is the state of toilers; toilers have everything in their hand and they know themselves that everything is provided for them. Therefore we say that all their words and their propaganda have no effect and the people of Afghanistan will foil them too.

The great and beloved leader of the people of Afghanistan said: We even have the honour that farangis and spies of farangis bring charge of infidelity against us because we do good acts and when they level ominous accusations against us we will become more faithful in our faith and Islam, will proceed further and realise that these material and moral programmes which are worked out now are really good programmes and we are moving forward towards a right direction because our enemies call them bad. Therefore, what our enemies call bad it is in fact good and in the interest of our people and we never postpone such actions just because of their lies and propagandas. We work for the construction and building of Afghanistan and have prepared plans and programmes in this connection. For this purpose we have embraced all the toilers and we have won their support.

It should be said once again that we are moving straight ahead and as I also said earlier we proceed ahead and do not care how much the dogs bark.

Our great leader while talking about the intervention of reaction of the region said: International reaction wants and has succeeded too to use the reactionary quarters of Pakistan for achieving its ominous objectives. Its main purpose is to thwart the khalqi revolution in Af-

ghanistan. That is why it has employed the reactionary circles of Pakistan and through them it carries out propaganda against us. But their propaganda is so much baseless and hollow that the people of Afghanistan laugh at it.

We want the government of Pakistan to act responsibly and do not permit the relations between Afghanistan and Pakistan get deteriorated further as a result of their interference in our internal affairs and instigate our people and brothers against one another through nonsense assertions. Therefore we want that they take hands off. We want them not to repulse the friendship hands which Afghanistan has extended towards them. If this hand of friendship is pushed back great destruction would ensue here and as I said earlier not only Afghanistan but all the region will be drawn into it and this will be a great loss for the humanity and the region.

We have been very calm and patient in this connection and have tolerated with all courage their interferences but this tolerance has some extent beyond which there will be reproach.

On the national unity our great and dear leader said:

Whatever our internal and external and external enemies do and whatever

attempt they make they would not get any benefit from it. They will face failure by all means. The success of patriotic and toiling people of Afghanistan is ensured through their unity, concord and brotherhood. This brotherhood and concord will not be achieved by utterance of more hollow words. We should ensure brotherhood in practice.

There is no doubt that in Afghanistan live several nationalities whose languages, customs and traditions are different from one another but they still live in Afghanistan and are Afghans and every one of them should be given national and tribal rights. One of their great rights is the right of language so as opportunity is given to them to get education in their language and listen to publications printed in their language and read newspapers in their tongue. The khalqi state has given them this right in a very good manner. This has been a great and democratic action taken by the state. This is like a strong chain drawing all our nationalities closer together and directing them on the path of brotherhood.

I wish and am convinced that this action of us will bring good result soon and will give us further opportunity to take further step in this regard.

The genius and heroic leader of the people of Afghanistan at the end said: Our peasants, workers and other toilers have no hostility towards one another. All have the same objective and that is to get the fruit of their labour and work very well and have a comfortable life.

They have no enmity against one another. The satans who create discord among them are foreign forces who have ominous objective to carry out in the country. However, as I said earlier toiling nationalities of Afghanistan will foil these discords as they have done so far. All our toilers will have very comfortable life as real brothers of a family in Afghanistan.

Once again I assure you fully that the People's Democratic Party of Afghanistan and the state will prepare ground or pave the way in such a way as to let all the people of Afghanistan and all the toiling muslims perform their Islamic services in a better manner and carry out their social obligations and live with one another in a good atmosphere of brotherhood. Such life will be so desirable as the life of real brothers living in a family and that is the society void of exploitation which we want and will establish. In this society there will be no tribal discord and hostility and all will have comfortable life

like real brothers.

Our great leader after listening to the attractive speeches delivered by a few Ulamas and representatives said:

I have the pleasure to have seen you from close and listened to one another's good words. Once again I tell you that when you go to your regions try to get the people acquainted with our intentions and let us get informed of the people's will.

Our intent is to make the wants of our people the guiding torch of our way. These wants are to ensure justice and happiness and prosperity of the people of Afghanistan. This happiness and prosperity will be achieved when there comes a society in Afghanistan where exploitation of man by man is completely obliterated. In order to achieve this purpose the toilers of all nationalities living in Afghanistan whether Pashtoon, Tadjick, Uzbek, Hazara, Nuristani or Baluch should join hands and forge ahead as toiling muslims

Once again I repeatedly tell you that when you go back to your homes convey to them my warm greetings and regards, full of love, to anyone you may see whether woman, man, young or old. Their prosperity is our desire, we work for them.

Dr. Zeary opens agriculture directors' seminar

Saleh Mohammad Zeary, minister of agriculture and land reforms delivering his speech at the opening session of the seminar of heads of agriculture and land reforms of provinces.

KABUL, June 6, (Bakhtar).—For the purpose of healthy implementation and acceleration of the agricultural projects included in the five year development plan of the Democratic Republic of Afghanistan a seminar of the general directors of agriculture and land reforms of the provinces of the country was opened yesterday by Dr. Saleh Mohammad Zeary, minister of agriculture and land reforms.

Present during the inaugural ceremonies were Dip-

Eng. Mohammad Siddiq Alemyar, minister of planning affairs, deputy ministers of some of the ministries and heads of departments of the Ministry of Agriculture and Land Reforms.

At the start the national anthem of the Democratic Republic of Afghanistan was played then Dr. Saleh Mohammad Zeary, minister of agriculture and land reforms in a long speech shed light on the struggles of the heroic people of Afghanistan against colonialism and the struggles of the Peoples

Democratic Party of Afghanistan under the leadership of the genius leader of the people Noor Mohammad Taraki, President of the Revolutionary Council.

In connection with the valuable role of proper implementation of development plan the Minister of Agriculture and Land Reforms said: The great and beloved leader of the people of Afghanistan Noor Mohammad Taraki, General Secretary of the Central Committee of the Peoples Democratic Pa-

rty of Afghanistan and President of the Revolutionary Council has emphatically instructed that the five year plan of the Democratic Republic of Afghanistan has the status of a law and thus should be properly and correctly put into effect. Therefore negligence in implementing the plan is in fact defiance from law and is anti-revolution act.

Dr. Saleh Mohammad Zeary described the role of the seminar of the general directors of agriculture valuable and voiced hope that the participants of the seminar will gain desirable results in better implementation of the plan.

Similarly Dip. Eng. Mohammad Siddiq Alemyar, minister of planning affairs delivered a long revolutionary speech and said: The five year plan of the Democratic Republic of Afghanistan has special and outstanding aspects compared with the previous economic plans of the past and with full implementation of this scientifically prepared plan the corps of feudalism which is now laid in the coffin will be placed in the grave of history.

Dip. Eng. Alemyar described the percentage rate of economic and social growth in different sectors of the five year plan of the Democratic Republic of Afghanistan.

At the end of the inaugural ceremonies of the seminar Abdul Ahad Sarsam, deputy minister of agriculture and land reforms also delivered a speech on the five year plan of the Democratic Republic of Afghanistan and the importance of holding the seminar of the general directors of agriculture and land reforms.

The seminar will last one week and its sessions will be held daily at the hall of the Ministry of Agriculture and land reforms in the morning and afternoon.

Census enumerators' seminar opened

KABUL, June 6, (Bakhtar).—The training seminar for enumerators of Central Statistic Office of Kabul city and some other administrative units of Kabul province was opened in a ceremony at the auditorium of Public Health Institute yesterday.

The function began with the playing of national anthem. Afterwards, Abdul Ghafour Malikzada, deputy minister for statistics of the Planning Affairs Ministry, in a speech recalled the gains of the great Saur Revolution, under the leadership of PDPA and sagacious directives of great teacher of people of Afghanistan, Noor

Mohammad Taraki, General Secretary of the Central Committee of PDPA and President of Revolutionary Council, for the benefit of toilers of the country. He added, it is a matter of great pride that for the first time in our history, the first full census project is being carried out in line and form of new khalqi regime and in accordance with the lofty objectives of great Saur Revolution and aspirations of Great Leader of the people of Afghanistan.

The Deputy Minister for Statistics expounding on the great importance of this measure of khalqi state, which is considered one of

the infrastructure projects of the state, said for building a free, comfortable and blossoming society and solving scores and different economic and social problems, inherited, from the past rotten regimes, the availability of a precise statistics in drawing up and implementing the developmental plans is important and effective, and is one of the present urgent needs in the light of which one can reach the high stage of economic and social growth. Thus it is up to you enumerators to carry out your duties, as expected from you, with utmost sincerity and patience and expert necessary efforts in fulfilling this national goal.

A source of the Central Statistics Office said the week long seminar is attended by Kabul city enumerators and some administrative units of Kabul province.

The source said in the full census project of the country which will begin on Jauza 25 (June 15) and will be completed on Saratan 15 of (July 6) the current Afghan year 15,000 people will carry out their duties in 10,000 areas for full census of the country.
